WHAT DID YOU PAY FOR ANTIBIOTICS 25 YEARS AGO?

25 years ago you couldn't buy antibiotics at any price. Neither could you get tranquilizers, steroids, radioisotopes, polio vaccines, nor a host of wonder drugs that are now commonplace.

That's why it isn't logical to say, "Prescriptions cost more than they used to." Most of today's drugs weren't available 25 years ago.

Perini Electronic Corp., manufacturer of automatic dialer equipment, will move its executive offices and establish East-Coast manufacturing facilities in Andover effective Sept. 21.

The company has leased 40,000 square feet in the former Marland Mills complex, and reports that its initial employment will be approximately 125.

A company spokesman said this week that the expansion is a direct result of the need to meet increased telephone company demands for the "Magical" automatic dialer. Perini recently contracted with the American Telephone and Telegraph Co. for delivery of more than a million dollars worth of its product.

The manufacturing firm was established in California in 1946. Its present plant is located in San Mateo and will continue to operate there.

It is now estimated that the cost of constructing a new 1,200 student senior high school will be approximately \$4.5 million, representing a \$2.50 to \$2.70 tax rate increase.

Just what percentage of the final cost is added to the tax rate in any given year depends, according to a member of the Finance Committee, on the method and terms of financing arranged. It is assumed the vehicle will be a long-term bond issue.

The Building Committee's final decision on which of two sets of plans to turn over to the School Committee had not been made at Townsmen press time. The best advance information indicated however, that the group would ride with its first preference (a four-story, rectangle with annexes) rather than switch to a second, hastily drawn plan requested after closer cost estimates on the original building began to come in.

The School Committee, pressured by mushrooming enrollments and an Oct. 19 Town Meeting deadline, was expected to clear the plans. Both committees had meetings, one after the other, scheduled for Wednesday night.

The alternate possibility, a four-story, square-block building, designed with the gym etc. at the core, was suggested as a money saver. Architects Perry, Shaw, Hepburn and Dean were said to be

Abbott girls arrive in Andover Sept. 21 and begin classes the following day.

How Does The CO-OP Police its Prices?

There aren't many stores that haven't been told from time to time that certain of their prices are out of line. We too have heard this.

The Andover CO-OP has a very clear price policy: **We sell competitively.**

This would be easy to do if the items were few in number and prices were stable. But we carry thousands of items, some with prices changing frequently. To further complicate the price structure, we have weekly specials and special deals.

The only sure way for us to keep faith with our public is to police our prices constantly - and we do just that.

We have just completed a new kind of price comparison which we propose to describe to you in the coming weeks.

Watch for it. We think it will prove to you that our price-policing policy does indeed keep CO-OP prices competitive in a fiercely competitive business.

Cooperation Is Coffee Topic

The staff at Memorial Hall Library served coffee to Andover Junior High School teachers Wednesday and presented a program with the theme "Coordination of Town and School Library Services".

Junior High Principal William E. Hart introduced Miss Miriam Putnam, librarian, to the nearly sixty teachers attending.

The librarian spoke to familiarize, particularly new teachers, with the resources of the library which are available to all local teachers for professional and personal use.

She pointed out that there are educational magazines, purchased in accord with teacher preferences, 250 general interest magazines, some 68,000 books, recordings, film strips and nearly 100 framed pictures available. Through a Film Cooperative, she said, a pool of 80-100 additional films is shared by town and schools annually.

Miss Elizabeth Russell, supervisor of children's services was introduced and spoke of the new books added to the children's room which will appeal to seventh and eighth grade students. Also introduced was Mrs. Kenneth Vint, the new assistant librarian who explained how ninth graders are to be served by the collection and displays in the adult library.

DAVIS - CHAPMAN

Miss Judith Putnam Chapman and Geoffrey Stewart Davis, both of Andover, were married Aug. 22 at 1 p.m. in South Congregational Church with Rev. Richard Streeter officiating.

Miss Chapman is the daughter of Mr. and Mrs. Clarence Edward Chapman Jr., 145 Chestnut st. and the bridegroom the son of the late Mr. and Mrs. Percy Walter Davis.

The bride was given in marriage by her father in a church decorated with palms, chrysanthemums and Fuji mums. She wore a traditional gown of deep ivory with a fitted bodice and belled skirt. The front panel was etched in reembrodered Alencon lace which was swept into a chapel train. Her French illusion veil was triple tiered, falling to the fingertips from a heightened crown of pearly stephanotis. She carried a crescent cascade of thalansopsis and orchids.

Mrs. Nelson Clayton of Providence, R. I. was the matron of honor. She wore a full length gown of rose shantastique, the controlled skirt enhanced by a back-bustled panel which lent an air of old-fashioned simplicity. She wore a single flowered headpiece with a soft veil and carried a single red rose.

MRS. GEORGE S. DAVIS

Dressed similarly in soft aqua,

the bridesmaids each carried a single yellow rose. Marylou Chapman, sister of the bride and junior bridesmaid, wore a full length pale yellow gown of organza over taffeta. Its high waist was accented by contrasting fabric with a back bow and panel. She carried an old-fashioned nosegay of yellow sweetheart roses and stephanotis. The other bridesmaids were Miss Barbara Galt of Dedham, Miss Joanne Wilson of Andover, Miss Nancy Chapman of Brattleboro, Vt., a cousin of the bride, Miss Nancy Jane Currier of Gloucester, also a cousin, Miss Ruth Holyoke of Marlborough and Miss Cheryl Fortier of Guilford, Me.

Richard Davis of Salem, N. H. was his brother's best man. Ushers were John Lisanti of Brookline, Dana Chapman of Andover, a brother of the bride, Lawrence Silver of New Haven, Conn., Dr. Norman Gaudrault of Melrose and John Chapman of Brattleboro, both cousins of the bride, and Gerald Miller of Brockton.

For her daughter's wedding Mrs. Chapman wore a pure silk dress of rose featuring a sheath skirt, lace bodice and Chanel-type jacket with matching accessories. Her corsage was white stephanotis. Mrs. Walter Wilson Jr., the bridegroom's guardian, wore a pure silk, antique gold dress fashioned with a belled skirt. Her corsage was white stephanotis. Mrs. Kevin Farley registered guests attending a reception at the Lanam Club.

After a wedding trip to the Maritime Provinces of Canada, the couple will reside at 18 Barchelder st., Melrose.

Townsmen Editorial Thoughts

The Time Is Now

Does school construction have to be such an agonizing procedure?

Is there some way, short of total standardization, to cut the time between the realization of the need for a new school and the fact of its construction?

These are questions that must lurk, at least subliminally, in the minds of citizens exposed to the many months of ping pong-like exchanges between the School Committee and the School Building Committee on the subject of how much and what kind of space to provide for high school students whose number already exceeds the town's capability to provide for them.

Next month taxpayers will be asked, at a special Town Meeting, to approve plans and the price tag for a new high school, knowing that less than a week before making its final recommendation on construction to the School Committee, the Building Committee was still uncertain about which of two sets of plans it would recommend.

Most of the tedious reappraisal that goes into the preparation of plans for a new school is the result of attempts to find a balance between what is desirable and what is practical: this is the common concern of educators, committeemen and municipal officials.

An undetermined percentage of the agonizing stems from the efforts of all involved to re-state, re-study and re-evaluate, to get it all on the record so that the chips will know which way to fall should history reveal some flaw in their best efforts to outguess time, educational trends, economic developments and the stork. The spectre

of the present high school is a visible pressure.

Can some of the hot-seat aspects of involvement with school construction be eliminated? Perhaps out of this latest experience both the school and building committees can formulate suggestions for an easier (and cheaper) way to do it.

One obvious possibility occurs to the uninitiated. Does each new school have to be incubated as though it were the single egg of the last whooping crane?

What would be lost — or gained — if schools had to be built a bit more like most people have to build houses: from a set of plans designed by experts but sold to the masse? By one school administrator's own admission, there are only about four basic floor plans used in school design. Is it totally impractical to work from such a plan, adapting it to local needs?

Is there value in the suggestion that the school building committee be a standing committee? In theory this should guarantee a hard core of experienced people, perhaps eliminate some of the natural inclination of each fresh group to want to leave better landmarks than those dedicated by their predecessors.

Whatever the answers, they should be in formulation before the final vote on this present project is cold. The town is facing construction of at least five new elementary schools. At the same rate of debate, upperclassmen at the as yet unhatched high school may graduate in time to participate.

Memorial Hall Library

Coming Events

SEPTEMBER
12 First Saturday, opening of season.

16 Library Trustees meeting.

New Library Hours

Winter hours start this week at the Memorial Hall Library which means that readers and borrowers will find the library open on Saturdays as of Sept. 12. In the children's room Saturday hours will be from 10-12 and 2-6. Week-days the children's room will be open from 2-6.

The adult reading room will open its doors starting this Saturday from 10-6. Mondays through Fridays the hours will be 10-9.

Ballardvale branch will be open as usual on Mondays and Thursdays from 2-5 and 6-8.

Extended service on Saturdays coincides with the desire of Andover residents to catch up on their reading and to see what the new fall books are. To make it easier for them to do so, the library has started a new service. Book reviews on cards, of new books as they are received at the library, may be inspected by those who wish to find out whether the book would appeal to them and by those who want to see what new books the library has bought. If you do not readily find the box of reviews in the adult reading room, feel free to ask for it.

Welcome Ninth Grade

Registration in the adult department continues for students entering the ninth grade this fall. There is always a flurry of such transfers from the children's room as school opens and the staff is alert to help old residents as well as those who have recently moved to Andover. Entering the ninth grade means that a young adult graduates to the adult reading room and has the full privileges and responsibilities of an adult borrower's card. The librarians make a special point to help in finding a particular book or materials to answer a teen-ager's questions. The teen-age corner is yours with several hundred stories and informational books, but the book you need may be anywhere in the adult reading room. Just ask us!

Littlest Listeners

Registrations are now being taken for the Littlest Listeners groups which are pre-school picture-book hours conducted each week during the winter season in the children's room. If you have

a 4- or 5-year old boy or girl who would enjoy such a program, let Miss Elizabeth Russell, know as soon as possible, as enrollment in the groups is limited.

Library Summer Reading Club

During the summer each club member read as many good books for his age level as he wished. Several boys and girls read many more than the magic number ten which was required to earn a certificate. Following is the list of those completing the requirements. Each one read and reported on ten titles and took home a colorful bookshelf chart to keep as a reminder of a goal achieved and a summer of reading pleasure.

Robert Barry, Lainey Camp, Carol Christopher, Eric Christopher, Mary Jane Castello, Cynthia Curdo, Mary Jane Corry, Diane DeLucia, Karen Erickson, Leslie Fisher, Diane Funk, Priscilla Gordon, Karen Haag, Jim Holmes and Loretta Luceri.

Also Eileen McAndrew, Jennifer McLean, Larry McLeod, Meredith Moody, Patricia Morin, Mary Oelwang, Barbara Popadak, Nancy Paterson, William Paterson, Dana Pepin, Cynthia Radula, Marleah Ramsdell, Pauline Schadlick, Melissa Sherman, Phillip Taft, Lisa Tacconi, Donna Tallini, Benetlee Timmons, Perry Trilling, and Marialice Wade.

Great Books Program

Under the able leadership of Robert Rockwell and Miss Helen Stearns the discussion of Great Books of the Western World will commence for the fall season on Tuesday, October 6 at seven-thirty p.m. at the library. Ecclesiastes from the Old Testament is the reading for this meeting.

Anyone may join the group. If you plan to be a member, why not come to the library for more information and ask to see the list of reading which will be the basis for discussion. As in past years the Great Book Discussions are scheduled for alternate Tuesday evenings.

ESSEX CAMP SITE

Increased demands for camping facilities in Essex are to be met with the \$100,000 construction of 75 camp sites and accompanying conveniences at Bradley W. Palmer State park in Ipswich.

H. W. Foster, commissioner of natural resources, reports that the area will be developed in time for the 1965 recreation season.

Down the Years with The Townsman

'75 Years Ago — September, 1889

Charles H. Eglee, the contractor for laying the water pipe for the water works, is in town. He was ready to put a gang of men to work but the pipe has not arrived. Work is expected to start next week.

Miss Ella L. Holt, who has been spending a four week's vacation at Peak's Island, Biddeford Pool and Portland, Me., has returned home.

Samuel Moore, Ballardvale, has purchased an elegant new Ivers and Pond piano.

A handsome string of about 50 pickerel was shown by R. M. Abbott and J. F. Baldwin following an afternoon of fishing.

50 Years Ago — September, 1914

A well-dressed man entered St. Augustine's church Sunday noon and robbed the poor boxes, breaking the locks in so doing. When the sexton entered, the man said he was looking for Fr. Riordan, the pastor. The sexton was suspicious and turned on the man who fled and was chased to the Tyer Rubber Co. pocket where he was lost. The theory is that he hopped a freight which was passing the station at the time.

A horse owned by J. P. West caused some excitement by running wild along Central st. The wagon overturned in front of the residence of F. H. Foster. The driver was thrown but was not injured.

Miss Georgianna Lovejoy, salutatorian of the class of 1914 at Pynchard High school will enter Smith College this fall.

25 Years Ago — September, 1939

The possibility of the need of a fourth school bus was discussed by the school committee which has been bothered by the ever increasing transportation problem. A run must be made to the Tewksbury line on Lowell st. as a family with five children has moved into a house there.

High and Junior High school enrollments are below those of last year. There are 365 students at Pynchard and 453 at the Junior High school.

Phillips Academy is ready to open with a full enrollment of 700 boys.

Mr. and Mrs. Arthur C. Colbath of Woburn st. were guests of relatives and friends at a party marking their 25th wedding anniversary.

The new Recreation bowling alleys are to open. A league with 16 teams is being planned for the winter months.

10 Years Ago — September, 1954

The town is beginning to recover from the battering of hurricane Carol which struck on Aug. 31. Loss of electric power continues to be the greatest hardship. Food spoilage has been great in home freezers. Ice is being brought into Andover from other communities. The Board of Public Works hired 60 extra men and seven extra trucks for clean up work. Trees blocking streets were cut into several lengths and bulldozed to the side of the road.

School attendance is up over last year. The figures compare as follows:

	1954	1953
Pynchard	353	354
Junior High	471	376
Central	836	714
Shawsheen	333	312
West	198	250
Bradlee	149	136
Totals	2340	2142

Little interest is being shown in the Sept. 14 state primary election. J. Everett Collins, chairman of the board of selectmen, is seeking the office of county treasurer. Sea birds, blown inland by the hurricane, have been observed feeding on local lakes and ponds.

Mrs. Frederick B. Noss, Mrs. Glen Grant, Miss Alice Hopkins and Mrs. Allan Gillingham are new members of the faculty at Pike School.

BAND PARENTS MEET

The Band Parents Association will meet Monday, Sept. 14 at 8 p.m., in the music room at the Andover High School.

All parents with children in the school band are urged to attend this meeting.

Tooting Permissible

Horns are sometimes for blowing!

The ant-like activity of automobiles on the face of the earth long ago prompted massive propaganda campaigns, backed by ordinances, to discourage the unnecessary toot.

All but a few have responded to the message, and the din has been controlled. But there are two spots in Andover where a toot is permissible and can be downright vital: the horn bridge underpasses on Andover street and Burnham road.

Too many, however, ignore the printed command to signal their arrival at the pass through. It could be a dangerous gamble, particularly at peak traffic hours when in and outbound workers try to shave a little off their commutation time.

A none too delicate, well timed blast on the horn is worth an instant of effort. It could be worth much more.

What Our Readers Say—

To the Editor of the Townsman:

"I have a lot of sympathy for your readers as they try to follow developments on the high school building problem, because the situation can be both obscure and confusing.

"One example of confusion is the word 'capacity'. It may come as a surprise to some of your readers that, as customarily used, the word does not mean what it says. That is why we can accommodate 900 students in a building with 750 'capacity' without even using a shoe horn.

"An important obscure area is our educators' demand for more building flexibility to meet the real or fancied requirements of the revolution which is said to be taking place in teaching methods, and which is already making our new high school building more or less obsolete.

"Structural flexibility seems to me to be the chief argument for a completely new building. Although I do not pretend to understand flexibility, I shall guess at its implications in the hope that others may correct or expand what follows.

"One meaning of the word has to do with dividing space to make some teaching areas smaller. If one room of standard size is divisible, two small classes can be accommodated in a space normally occupied by one. This more efficient utilization of space saves

space and should save money.

"Another meaning is just the opposite since it would permit several classes of normal size to be grouped together for movies, TV, team teaching, etc.

"A third meaning seems to cover the desirability of having related subjects taught in adjoining or contiguous areas. This involves a supposed educational advantage, based on the assumption that even a short distance is a handicap to effective learning or teaching or administration.

"If the extra cost of a completely new building is justified chiefly by structural flexibility, then our citizens must clearly understand the extra benefits which the extra cost can buy.

"But will those benefits last? Why won't the proposed new building also start to become obsolete soon after its completion?

"If obsolescence is going to force a new multi-million dollar high school on us every ten years or so, why wouldn't we be better off to erect cheap temporary high school buildings, to be torn down and replaced after a fast ten-year write off?"

YOUR Pharmacist SPEAKS

by: Paul Upson, R. Ph.

"Oh, my aching back" was a familiar refrain born in the war years of the 40's, and as you might guess, was not necessarily a physical complaint.

On the other hand, an aching back in reality is no joking matter. Once the 30-year mark is passed, degeneration of spinal discs and a weakening of the ligaments joining the vertebrae may cause an unstable spine. This adds up to no small amount of pain and discomfort.

Avoid unnecessary back strain by sitting straight and sleeping straight. Instead of bending over completely to pick up something, bend the knees and lean forward from the hips.

Which reminds us - you'll experience no strain at all when you come to SHAWSEEN PHARMACY for prescriptions. Seriously, we take pride in filling prescriptions efficiently and exactly. Only the finest drugs known to science are used at SHAWSEEN PHARMACY, Shawsheen Square. Free prescription delivery.

THIS WEEK'S HOUSEHOLD HINT: Try putting strips of adhesive around bottles that you may use in the bathroom with wet hands - shampoo bottles for example. This makes them less slippery.

estimating, however, that it would cost some \$200,000 more to construct and, in their opinions, offer too little additional space for the money. They considered the fact that it could not be readily enlarged or cutback an additional handicap.

There was no immediate indication what, if anything, the Building or School Committees might consider to shave the price. Possible economies that could put the total at something like \$4.2 million were mentioned.

Early round-figure estimates on what it would cost to build a 1,200 student building had set the figure at about \$4 million. Building Chairman Robert McIntyre, asked about the apparent cost increases, said that most of those involved based their original thinking on construction costs alone. "But", he explains, "ten percent of the total project cost is for equipment."

Further adding to the price tag is the some \$550,000 that will go into site development. McIntyre said that about half this amount will go for site work that should have been done when the present high school was built eight years ago.

The Building Committee is scheduled to present the approved plans to the School Building As-

Small Space For One

If you think a Volkswagen Station Wagon is just a funny-looking car, maybe you never saw one fit in a space that regular wagons have to pass by. Then, when you realize how much stuff you could put inside of it ... kids, the crib, high chair, bicycles, luggage, presents ... and still have plenty of room for comfort, you get the point.

There's an air cooled engine that starts at the turn of the key (even at 2:00 in the morning). Then, only \$3.00 can fill the tank at any gas station and you don't have to worry about it for 3 weeks. Take the kids for instance ... they love going for rides in this Volkswagen bus - who wouldn't?

And, if it is a glorious day, you can slide back the sunroof and let a little glory in - all of a sudden, it stops looking funny.

You can see this wagon at the Harrison Park Corporation, 222 Lowell Street, Lawrence. Ask Mr. Harrison or Mr. Park to show it to you. They will point out how economical and easy it is to own any type Volkswagen.

Friendliest Service

Are you ashamed of your car's interior? Have the kids pulled out all the stuffing, springs sticking up? You don't have to look at this any longer! Just bring your car to 165 South Broadway, Lawrence. That is where the Columbia Auto Seat Covers Inc. is located. There you can get a brand new-looking car for only a few dollars. New seat covers not only improve your comfort, they also increase the value of your car. You get your choice of materials and colors, custom made to suit the car and its interior. You also get complete interior service such as door trims, headliners and floor mats.

Serving the community for over 27 years, Columbia Auto Seat Inc. has proved itself to be more than dependable. It is also fast, efficient, and ready to serve you at all times. With the friendliest service in the area, how can you go wrong?

Just call 683-2205 for auto seat covers that will last you for many years to come and renew the life of your car.

The Extra-ordinary

You've got a lot to look for under our sign - we are more than just an ordinary used car lot. For one thing, you'll find an extraordinary selection of used cars. For another, you will meet one of our experienced salesmen who is also a used car expert. When you ask questions, he'll give you the kind of answers that will help you make a sound choice when you buy.

And, just as if you'd bought a new car, Berube's highly trained staff is there to help you if you ever need it.

So, when you are thinking of buying a good used car, remember Berube Auto Sales, 12 Parker Street, Lawrence - the sign that stands for service.

Save Money

If you have ever consulted a Sutton travel agent, you may have noticed that, endearingly, his main interest in money seems to be saving yours. Not everyone could be more concerned with your budget, your itinerary, your welfare along the way, and your enjoyment once you get there. But we, at Sutton, are more than concerned. Our agents go out of their way to make sure that your trips are enjoyable and fun filled for you ... they consider it a part of their job. What is more, a travel agent, here, does his traveling for your benefit: so that he can rely on his own personal experience when he recommends a hotel, town, or an airline.

Why don't you see for yourself ... visit Sutton's and get a free consultation. Located at either 263 Common Street, Lawrence or 1 Lowell Street, Andover ... for your convenience.

Youngsters' Special

For most youngsters, a bedroom is more than a place to sleep. It is also a spot to study, to decorate, and most of all - to take pride in. It is unfortunate that such an important place in the lives of our young people is so small and often sadly neglected.

Why not plan to add one sturdy room for the youngsters growing up at your home? This can be done easily. Just take a trip to the Jackson Lumber Company, 10 Jackson Street, Lawrence and get the complete line of building materials including lumber, hardware, and paints. Plan and build this room yourself or have it done. You can be sure that all the materials bought here are of the finest quality. They'll make your newly added room serve the purpose and give your home the look of beautiful elegance that you desire.

DON'T RUN OVER MY LITTLE GIRL!

"A few weeks ago I saw a little girl struck
 by a car as she tried to cross the street. I saw
 a father race toward her and hold her to him
 as she struggled in the agony of death. I saw
 the look of despair that came over his face. I
 could only offer a prayer that such a thing
 might never happen again.

"Today my daughter, who is six years old,
 started off to school. Her cocker spaniel,
 whose name is 'Scoot', watched her leave and
 whined his belief in the folly of education.

"Tonight we talked about school. She told me about the girl who
 sits in front of her, a girl with yellow curls, and about the boy
 across the aisle who makes faces; about the teacher who has eyes
 in the back of her head; about the trees in the school yard, and the
 big girl who does not believe in Santa Claus.

"We talked about a lot of things, some important, some un-
 important.

"Now, as this is being written, she is sound asleep with her
 doll 'paddy' in her arms.

"When her doll gets broken, or her finger gets cut, or her head
 gets bumped I can fix them. But when she starts to cross the
 street, then Mr. & Mrs. Driver, she is in your hands.

"Much as I wish I could, it's not possible for me to be with her
 all the time. I have to work and pay for her home, her clothes and
 her education.

"So, Mr. & Mrs. Driver, please help me to look out for her.
 Please drive carefully. Please drive slowly past schools and at
 intersections. And please remember that sometimes children run
 from behind parked cars.

"Please don't run over my little girl."

REMEMBER

. . . speed is not the primary cause of accidents, speed may be
 involved. The primary causes of accidents are inattention and
 lack of respect for the rights of others.

ST. AUGUSTINE'S School showing both the original brick structure opened in 1918 and the Chestnut st. entrance to the \$400,000 wing added in 1962. The addition is on the site of the private home which was converted for the original convent-school which held its first classes in 1914 when Sisters of Notre Dame answered the request of Rev. Frederick S. Riordan, then St. Augustine's pastor, to staff the school. (Currier)

St. Augustine's Celebrates Its 50th School Year

In 1914 four nuns, Sisters of Notre Dame, from a Waltham convent walked the dusty hill from the B & M station to be met at the porch of the old Horace Tye home by a contractor, hammer in hand.

They had come to survey what was being remodeled as the first home for St. Augustine's school. Tuesday the parish celebrated the 50th anniversary of their arrival and the birth of a school which has grown to a 1964 enrollment of 649.

The Golden Anniversary celebration included a dinner at the convent for visiting Sisters of Notre Dame, a teaching order founded in Namur, Belgium.

The Golden Anniversary celebration included a dinner at the convent for visiting Sisters of the same Belgian (Namur) order which staff the school, a Solemn Pontifical Mass celebrated by Bishop Patrick Dalton, O.S.A., and a reception for graduates, former students and friends.

Classes for the first three grades were held in the original convent-school until 1918 when a new building was opened to accommodate seven grades, and finally eight. In 1962 the parish built a \$400,000 addition, and enlarged its staff which now numbers 13 teaching nuns and four lay teachers.

Reminiscing last week William A. Doherty, a member of the first graduating class in 1920, recalled that the first school was built from small change collections. He remembers that his father, the late William J. D. Doherty who had been in charge of renovating the house-school, contributed 25 cents weekly to someone who came around collecting on pledges for the original brick building.

Mr. and Mrs. Harold Tynning and their family of Beacon st., returned from a vacation in New Brunswick, Nova Scotia, Prince Edward Island.
